

We need to provide our students a social and politically neutral learning environment.

The classroom doesn't need right wing or left wing programming. Teach math, biology, history, science, reading, spelling, home building, FFA pathways.

Parents will teach their children the benefits of Pro-life and Pro-Choice. Pro Gun or Anti Gun.

Parents will teach their children Traditional marriage and gay marriage values

White Privilege, Black Privilege, Color Shame, all that programming is waiting on their cell phone and should ultimately be resolved by the parent not the teacher.

White Fragility, Black Fragility, and loving your neighbor as yourself should be resolved by the parent not the teacher.

Micro Aggressions and major aggressions should be addressed at home and addressed at school **individually when needed.**

3 years ago when I was on the school board there was an English teacher that tried to teach micro aggression and it failed so badly the minority students went home crying along with their white friends. Just because you're a teacher doesn't mean you teaching anything you want.

We need to provide our students a social and politically neutral learning environment.

Then there was the anti-Israel teacher

5 years ago my son was in an English class and the room was asked to stand if you supported Trump, so he stood along with others and then the explained that they were no better than Hitler supporters. It took almost 2 years to remove that teacher from the district.

We need to provide our students a social and politically neutral learning environment.

Has much changed in 5 years? NO

Last month in a public speaking class my daughter had an agenda driven test question:

TRUE or FALSE

BIOLOGY determines one's gender? The teacher graded the answer as false.

When a baby is born, the doctor looks at the biology- IT's a girl, or It's a boy- but not according to this teacher.

As a result for the next few semesters I believe you need an independent team with

elementary administrators and school board members that will conduct and review monthly online student surveys to gauge if the teacher is providing a social and politically neutral learning environment.

Stop the politics

Stop social experiments

Stop the agendas-

PROVIDE our students a social and politically neutral learning environment

This isn't California

This is Iowa!
